

## Data Format :

□ In this course : CSV : comma separated values

Table where columns are separated by comma.

"Problem" : Within a column there is a comma?

⇒ Decimal delimiter will be dot

5.27 not 5,27

□ ~~readr::read\_csv~~ readr::read\_delim( . )

US version { readr::read\_csv(file) ⇒ comma as column delimiter  
dot as decimal separator

Europ version { readr::read\_csv2(file) ⇒ semi-colon (;) as column delimiter  
comma as decimal separator
